I. INTRODUCTION

This Unified Planning Work Program (UPWP) is a mechanism for listing and organizing the Mesilla Valley Metropolitan Planning Organization's transportation planning activities that will be undertaken during the covered time period. This document was developed in accordance with the Infrastructure Investment and Jobs Act (IIJA), commonly referred to as the Bipartisan Infrastructure Law (BIL) signed by President Biden on November 15, 2021, federal regulation 23 CFR 450 and FTA Circular 8100.1C.

A. MVMPO General Overview

The Mesilla Valley Metropolitan Planning Organization (MPO) has been in existence since 1982, originally under the name "Las Cruces MPO." The name was changed in 2013 to the Mesilla Valley MPO. The MPO was created under a Joint Powers Agreement (JPA) signed by the City of Las Cruces, Doña Ana County, and the Town of Mesilla. The JPA was most recently updated in 2021. The JPA designates the City of Las Cruces as the fiscal agent for the MPO. The MPO is supported by a permanent full-time staff of an MPO Officer, two transportation planners, an associate transportation planner, and two part-time co-ops.

B. Transportation Planning

The MPO is a multi-jurisdictional agency responsible for regional transportation planning in Las Cruces, Mesilla, and central Doña Ana County. Federal regulations (23 USC 134.d) require the designation of an MPO to carry out a coordinated, continuing, and comprehensive transportation planning process for urbanized areas with a population of more than 50,000. The Mesilla Valley MPO annually establishes project priorities for consideration by the New Mexico Department of Transportation (NMDOT) when programming transportation funds. The MPO is also responsible for planning all aspects of the transportation system, including roads, freight, bicycle and pedestrian facilities, and public transit.

Refer to Appendix B for a map of the Mesilla Valley MPO Planning Area.

C. Governance, Boards, and Committees

The MPO operates under the guidance of a Policy Board, which is comprised of nine elected officials plus the NMDOT District One Engineer. The elected officials are three Las Cruces City Councilors, three Doña Ana County Commissioners, and three Town of Mesilla Trustees. The Policy Board makes decisions to plan for the future transportation needs of the region. The Policy Board has two advisory committees: the Technical Advisory Committee (TAC), which makes recommendations to the Policy Board regarding technical issues and jurisdictional issues. The Bicycle and Pedestrian Facilities Advisory Committee (BPAC) which provides recommendations for the planning of bicycle and pedestrian facilities within the MPO Planning area.

D. Unified Planning Work Program Requirements

A Unified Planning Work Program (UPWP) must be developed by each MPO in cooperation with the state and public transportation operators (49 USC 5303) which identifies the work of the MPO over a one- or two-year period. The development of the UPWP is the joint responsibility of the MPO, State DOT, other state departments, public transportation operators and other planning and implementation agencies. The UPWP must identify work by major activity and task including those that address the planning factors in 23 CFR 450.306(a) which are listed in section G, below. Other requirements are that a discussion of planning priorities facing the metropolitan planning area must be included. This UPWP meets all federal requirements and covers a two-year period.

The UPWP developed by an MPO must include:

- A description of the work to be accomplished;
- Who shall perform the work for an activity/task;
- A schedule for completing the activity/task;
- Resulting products of the activity/task;
- Proposed funding by activity/task;
- A summary of the total amounts and sources of federal and matching funds;
- Identification of any incomplete work elements/activities carried over from previous fiscal years; and
- A summary of the work program that shows federal share by type of fund, matching rate by type of fund, state and/or local matching share and other state or local funds.

E. The UPWP Development Process and Opportunities for Public Input

The MPO Staff develops the work program and budget for the next upcoming period in accordance with the following schedule. (The items may be accomplished earlier but no later than the listed dates. Dates may vary by a few days.)

April 30 th Even Years	1 st Draft of UPWP to NMDOT Multimodal Planning & Program Bureau (NMDOT MPPB), NMDOT Transit Bureau (NMDOT TB) RoadRUNNER Transit, and SCRTD
April 30 th Even Years	Proposed UPWP is posted online for Public Review and Comment. Begin 30-day public comment period.
May 31 st Even Years	MPO Staff will consult with NMDOT MPPB & NMDOT TB on Draft UPWP by this date
June 1 st – June 15 th Mid-June Even Years	MPO Staff revise proposed UPWP as necessary Policy Board votes on approving UPWP; Opportunity for public comment at the meeting
July 1 st Even Years	MPO submits approved UPWP to NMDOT MPPB and NMDOT TB
Aug 1 st Even Years	NMDOT MPPB submits UPWP to FHWA-NM Division and FTA-Region VI for Review
Sept 1 st Even Years	FHWA-NM Division & FTA-Region VI comments on UPWPs to NMDOT MPPB
Sept 8 th Even Years	NMDOT MPPB submit final UPWPs to FHWA-NM and FTA-Region VI

The public may participate in the development of the UPWP in several ways. One way is to attend MVMPO's Policy Board meetings which are held the second Wednesday of most months and are open to the public. To learn more about these meetings, please contact Mr. Andrew Wray at (575) 528-3070 or email at awray@lascruces.gov. The public can also review the draft document during the 30-day public comment period. During this time, an electronic copy of the UPWP will be posted on the MVMPO website at <http://mesillavalleympo.org>. Additionally, information in the *MVMPO Public Participation Plan* can also be found at <http://mesillavalleympo.org>.

Amendments to the UPWP are required periodically to accommodate new tasks, award of funding grants, and changes in work priorities. Amendments are scheduled, if needed, on a quarterly basis with the approved UPWP amendment submitted to NMDOT MPPB on the last day of each Federal Fiscal Year Quarter (December 31, March 31, June 30, & September 30). Opportunities for public comment on UPWP amendments are available at any board meeting at which the item will be discussed. Agendas for all Policy Board meetings are posted online at <http://mesillavalleympo.org>.

F. Funding Sources for Transportation Planning Activities

Transportation planning efforts in the metropolitan area are financed primarily through federal funds: FHWA Section 112 funds, FHWA State Planning and Research (SPR) grant funds, FTA Section 5303 funds. Funds from local jurisdictions provide the required matching funds to receive federal funds. Local funds also provide additional funds for transportation planning purposes. Occasionally, state funds or grants are used for general transportation planning. Special federal planning grants for specific programs are also utilized when the MPO is awarded these types of funds.

G. Planning Factors Under Federal Law

The newest transportation bill, the Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law (BIL) continues the planning factors identified by the previous transportation bill, Fixing America's Surface Transportation Act (FAST Act). The planning factors as stated in the BIL are:

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- Increase the safety of the transportation system for motorized and non-motorized users;
- Increase the security of the transportation system for motorized and non-motorized users;
- Increase the accessibility and mobility of people and freight;
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth, housing, and economic development patterns;
- Enhance the integration and connectivity of the transportation system, across and between modes for people and freight;

- Promote efficient system management and operation;
- Emphasize the preservation of the existing transportation system;
- Improve resiliency and reliability of the transportation and system and reduce or mitigate storm water impacts of surface transportation; and
- Enhance travel and tourism.

H. Planning Priorities for the Metropolitan Planning Area

The MVMPO planning priorities are established in its Metropolitan Transportation Plan, known in this iteration as *Mobility 2045*.

Mobility 2045 Goals:

- Provide safe travel for all transportation users;
- Prioritize system maintenance;
- Provide for equitable transportation choice for all users;
- Provide improved connectivity within the transportation network and improved connectivity between the modes;
- Promote system efficiency, reliability, resiliency, and effectiveness;
- Support economic vitality and competitiveness;
- Adapt to changing technology;
- Enhance the environment;
- Support health and wellness;
- Support community character and context.

Task 2 – Transportation Improvement Program (TIP)

Task 2 covers the development, monitoring, and management of the Transportation Improvement Program (TIP) which implements transportation projects through federal, state, and local funding programs. The TIP spans a period of six years with the first four years constituting the federal TIP and the 5th and 6th years serving as informational years. The TIP must be fiscally constrained therefore, the total amount of funds programmed does not exceed the total amount of funding available.

Estimated Cost for Task 2 (includes all subtasks) =

FY 25	FY 26	Total
\$28,627.00	\$28,627.00	\$57,254.00

Estimated Staff Hours for Task 2 (includes all subtasks) =

2.1 TIP Development

Development of the TIP includes and adopt a list of projects to be funded with federal transportation funds and regionally significant projects funded with state or local funds. TIP development also includes entering project information in the NMDOT eSTIP online reporting tool. (ALI Code 44.25.00)

Responsibilities: All agencies through the TAC (Technical Advisory Committee), which is responsible for the development of the TIP with MPO Staff input and facilitation.

Source of Funds: FHWA, FTA, Local Funds for Match

Main Products and Schedule by Month:

2.2 TIP Management

TIP management consists of monitoring the progress of projects in the TIP and their progress toward the timely obligation of funds. Amending of the TIP is needed in order to accommodate increased or decreased funding, to delay or advance projects as progress monitoring dictates. Revisions fall into two categories: TIP Administrative Modifications which are minor revisions and TIP Amendments which require approval by the Policy Board. TIP management includes entering project information in the NMDOT eSTIP online reporting tool. As it is closely related to the TIP process, work for Transportation Alternative Program (TAP) funding is tracked as part of TIP Management. (ALI Code 44.25.00)

Responsibilities: MPO Staff manages the TIP processes TIP Administrative Modifications. TIP Amendments are processed upon recommendation and analysis of the TAC and BPAC. Local leads on TIP funded projects brief advisory committees and Policy Board on progress.

3.1 Transportation System Data Collection and Reports

MPO Staff collects and processes traffic data for routine monitoring of the transportation network, reports data to NMDOT and conducts special traffic counts as needed. Counts are collected on all functionally classified and selected local roads in the MVMPO region for a total of approximately 600 count locations. (See Appendix E for count locations and cycles). Traffic Count segments are counted once every three years. All counts are reviewed to confirm they meet the Highway Performance Monitoring System standards of FHWA and NMDOT.

Data collection is conducted systemwide as well as targeted locations and includes traffic counts, directional volume data, vehicle classification, bicycle counts, pedestrian counts, and intersection turning movements. Data is archived and logged into the traffic counts database and shared with local agencies for use in transportation planning activities. The Traffic Count Program operates servers to receive traffic data from member agencies' ITS networks (including NMDOT-ITS). All reports and analysis are made available to member agencies and the general public. Historically, the traffic volume information gathered by MVMPO has been distributed by an annual Traffic Flow Map. In recent years, MVMPO Staff has created and maintained a dynamic, online Interactive Traffic Flow Map to distribute traffic volume data. Funds are managed each fiscal year to maintain a reserve of funding that allows for the timely replacement of the traffic-counting vehicle (approximately every 5-6 years) and counter machines (approx. every 10-15 years). This task item also covers all non-motorized counts performed by MPO Staff. (ALI Codes 44.23.XX & 44.24.00)

3.2 Population, Land Use Data Collection, Travel Demand Model Maintenance

The MVMPO Staff will collect, maintain, and analyze multiple types of socioeconomic and demographic data. Projections will be provided for transportation planning purposes and for use by local and state agencies. Analyze and present data regarding growth and land use to member governments, planners, and the general public. The MPO serves as the regional affiliate for the State Data Center.

The MPO utilizes TransCAD as the travel demand modelling program. Model runs are conducted upon request by various agencies and for development of the Metropolitan Transportation Plan (MTP) and the Transportation Improvement Program (TIP). Updates are done periodically to the model's socioeconomic and demographic data, the roadway network, and transit network. (ALI Codes 44.23.XX & 44.24.00)

3.3 Highway Functional Classification Review and Update

The MVMPO Staff will review the current Highway Functional Classification and revise if necessary. Major changes to the Highway Functional Classification occur approximately 2-3 years after each US Decennial Census in accordance with federal procedures. However, new roadways and changes in roadway utilization sometimes require revisions to the system. These are conducted on an as-needed basis.

3.5 Development Review

MPO Staff will assist local agencies with reviews of development plans and traffic forecasts as requested. Plans will be reviewed for consistency with the MTP, TIP, and other pertinent planning documents and plans. MPO Staff is a member of the CLC Development Review Committee (DRC).

Forecasts requested by developers must be brought to the attention of the MPO through one of our member agencies. Furthermore, the MPO do not perform a Traffic Impact Analysis (TIA) or Traffic Impact Study (TIS) for developers. Developers may obtain information the MPO has already compiled or collected.

4.1 Metropolitan Transportation Plan (MTP)

The Metropolitan Transportation Plan (MTP) forms the basis for all transportation planning and projects within the metropolitan planning area. The current MTP for the Mesilla Valley MPO is known as *Mobility 2045*. The MTP covers all modes of transportation that may serve the current and future needs of the region. The plan conforms to federal regulations as set forth in 23 CFR 450. The MTP is updated every five years and may be amended, if necessary, as required.

Responsibilities: MPO Staff serves as the lead. The development of the MTP is a cooperative effort by the MPO and all its member agencies, NMDOT, area transit agencies, FHWA, FTA, “land use” planning agencies (i.e. municipal planning departments, US Bureau of Land Management, NMSU, local governments, and other agencies as necessary.

4.2 Board and Committee Meetings

Public meetings of the MVMPO and its advisory committees are the foundation of the MVMPO Transportation Planning Process. The MVMPO is directed by the Policy Board. Monthly meetings of the Policy Board are held to review and take action on various transportation issues in the urban area. The Policy Board has established two advisory committees. The Technical Advisory Committee (TAC) is made up of professionals from member jurisdictions and other agencies that are regional planning partners for the transportation system. The TAC also serves as the Transportation Asset and Safety Management (TASM) Leadership Committee. The Bicycle and Pedestrian Facilities Advisory Committee (BPAC) is made up of citizens interested in bicycle and pedestrian issues and staff from the CLC, DAC, TOM, NMSU, and

NMDOT. Both committees provide advice to the Policy Board and allow for more public participation.

4.4 Safety Analysis and Planning

The MVMPO Staff will develop, research, and analyze data to assist member agencies and the public with understanding crash information and transportation planning issues, including Performance Measures required under the BIL and identification of safety issues related to the transportation network. Explore the development of methodologies to estimate future crash data as economic impacts of crashes. This subtask includes maintaining consistency with the *NMDOT Comprehensive Transportation Safety Plan (CTSP)* and providing assistance to local member agencies and health organization planning efforts and health impact assessments.

4.5 Multi-Modal Safety Integration Planning

The BIL requires each MPO to use at least 2.5% of its PL funds on specified planning activities to increase safe and accessible options for multiple travel modes of all ages and abilities. To comply with this requirement, MPO Staff will research and plan for standards or policies that ensure the safe and adequate accommodation of all users of the transportation system, including pedestrians, bicyclists, public transit users, children, older individuals, individuals with disabilities, motorists, and freight vehicles.

4.6 Land Use, Transportation Integration, and Housing Coordination

A core policy of the Mesilla Valley MPO is to “achieve sustainability through coordinated Land Use-Transportation Planning.” This, the objective is to coordinate the expansion of the transportation system with regional land use planning. The MPO will provide consideration of projects and strategies that promote consistency between transportation improvements and State and local housing patterns. MPO Staff will work on an on-going basis with regional planning partners to influence decisions that implement this policy.

4.8 Intelligent Transportation Systems Planning (ITS)

ITS uses integrated system to improve transportation safety, mobility, and traveler knowledge through the use of innovative technologies. The MPO coordinates the programming and deployment of ITS infrastructure and is responsible for maintaining the *Regional ITS Architecture* and updating the *ITS Implementation Plan*.

The MPO will collect data to monitor system-wide and link-based performance to investigate recurring and nonrecurring congestion. The Congestion Management Plan (CMP) uses performance data to determine the cause and severity of congestion in the region. The CMP is used at various levels of planning and operational analyses such as the MTP, TIP and development of individual projects. The CMP is integrated into the metropolitan planning processes and provides comprehensive information on the performance of the transportation system so residents, elected officials, and agencies can make informed decisions based on congestion levels and location appropriate strategies.
